

Driving Successful Lives

Is working to make life better for people in need

And You can Help!

While also gaining credit for community service.

Our community service program helps you as you help others. Our goal is to increase our outreach in the community by ramping up our volunteer base & building a directory of local charities.

As a volunteer, you will:

- Contact area charities (in person or phone) to note the scope of services.
- Help increase Google map coverage of DSL through satellite locations.
- Distribute volunteer flyers to individuals, non-profits & other groups.

To register as a volunteer & get started right away From Home, visit our volunteer information and registration web pages at: <https://drivingsuccessfullives.org/community-service-program/>

Pass this flyer on to anyone that you know who might desire or be required to complete local community service.
